BUILDING OPERATIONS

SOUTH AUSTRALIA

DECEMBER QUARTER 1967

SCOPE

This bulletin gives information about "new building" operations in South Australia; in addition to a summary for the period 1963 to December 1967 it shows details concerning houses and flats, other buildings, employment in the industry, and dwellings in local government areas. The information has been compiled from returns collected from all builders of new buildings.

DEFINITIONS

New Building: Alterations and additions of \$10,000 and over to existing buildings are included, but minor additions, alterations, repairs and renovations, and all construction activity such as railways, bridges, earthworks, water storage, etc., are excluded.

Value: All values shown exclude the value of land and, except in Table 4, represent the value of buildings upon completion (see also "Completion"). Values shown in Table 4 represent the amount of work done on new buildings during the period and are not subject to the fluctuations from period to period noted in Table 3 in the values of "new buildings other than dwellings"; these fluctuations are partly the result of the unequal incidence of individual large contracts.

Commencement: A building is recorded as commenced when work on the foundation has begun.

Under Construction: Once commenced, even though work on it may have been temporarily suspended, a building is classified as "under construction" until its "completion".

Completion: A building is regarded as having been completed when the contractor has fulfilled the terms of the contract or in the case of an owner-built house when the dwelling is either completed or occupied (whichever occurs first). However, the value in all cases is that of the building as a finished project as planned.

COMMENTS

1,663 houses were commenced and 2,173 were completed during the three months ended December 1967. Commencements were 270 less than in the September quarter 1967 and 434 less than in the December quarter 1966. Completions were 171 more than in the previous quarter and 293 less than in the December quarter 1966.

The number of flats commenced (335) was 17 less than in the preceding quarter but 35 more than in the December quarter 1966. The total of 8,664 dwellings (houses and flats combined) commenced during the year ended 31 December 1967 was the lowest since 1958.

There were 12,203 persons recorded as employed on building jobs at 13 December 1967. This was 331 less than on 29 September 1967 and 1,159 less than on 14 December 1966.

OWNER-BUILT HOUSES

Of the 7,301 houses commenced during 1967, 479 (value \$3,898,000) were owner-built, i.e. being erected by the owner or under the owners direction by sub-contract or day labour but without the services of a contractor responsible for the whole job. During December quarter 1967 there were 103 (\$687,000) owner-built houses commenced and 155 (\$1,359,000) completed.

Electricians	825	793	811	827	707	675	692	745
Plumbers	1,304	1,327	1,278	1,172	1,064	1,074	1,101	1,122
Builders labourers	1,964	2,119	2,014	1,819	1,679	1,779	1,726	1,603
Other	2,583	2,961	2,849	2,485	2,419	2,590	2,640	2,428
Total	14,133	15,273	14,584	13,362	12,432	12,467	12,534	12,203

Note: Building employment covers all contractors and sub-contractors and employees of contractors, sub-contractors, and government instrumentalities, who on the day specified were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs, and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.
